Community

- Resident & business engagement and communications
- Signage
- Temporary Toilets

Spectator

- Wayfinding
- Spectator Services
- Medical
- Volunteers

UK&I play a coordination across all five buckets of activity, with the overall delivery managed by each individual city/stadium.

OUTER SECURITY PERIMETER (OSP)

- To create a **secondary checkpoint** for entry to the stadium with the aim of **safe and secure controlled boundary** around the stadium footprint.
- Ensure **safe, efficient ingress and egress**, particularly for EURO 2028 where large numbers of travelling supporters will be **unfamiliar with the stadium** and local environment.
- **Mitigate risks and threats**, including unauthorised access, crowd disorder, asset protection and hostile vehicle attacks, while supporting the wider tournament operational plan.
- Deploy **best-in-class products and systems** that uphold these principles while **delivering a service-oriented, welcoming experience** that presents each venue in a manner fitting of the tournament.

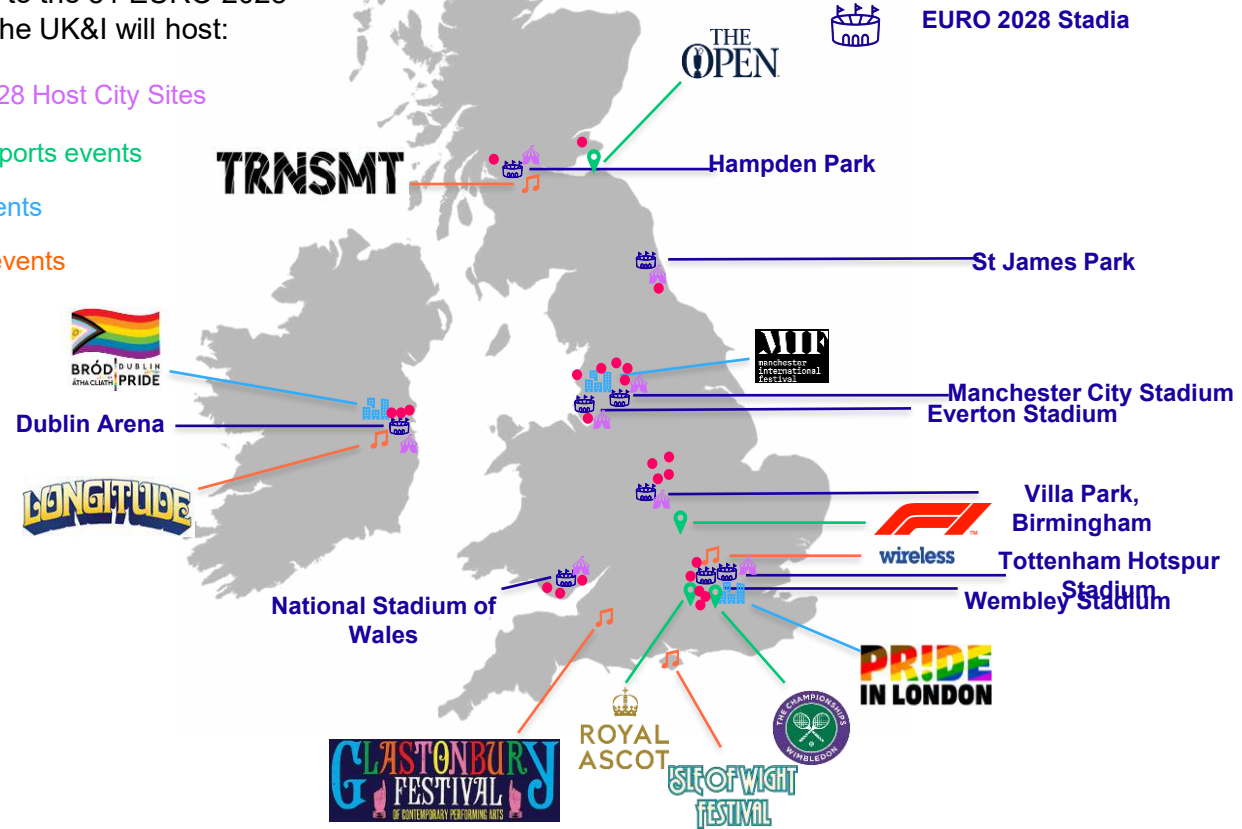

SAFETY AND SECURITY WORKFORCE

In addition to the 51 EURO 2028 matches, the UK&I will host:

-  EURO 28 Host City Sites
-  Other sports events
-  City events
-  Music events
